4 December 2000

U.S. AIR FORCE

Green Base of the Future

- **Conceived by the Texas Pollution Prevention Partnership (TXP3)**
- **Goal to create nationally recognized model for integrating pollution prevention into everyday activities**
 - **Positive impact on installation economics**
 - **Positive impact on the environment**
- **GBOF Matrix**
 - **Environmental categories borrowed from USGBC's LEED**
 - **Functional areas from installation-wide activities**
- **Awareness Tool**
 - **Guide explaining benefits to Installation Commanders**
 - **Measurement Tool with templates for each functional area and level of command on an installation**
 - **Results roll up in the Matrix to an Installation Score**

U.S. AIR FORCE

Green Base of the Future

- **Templates for the Seven Environmental Areas**
- **Simple Yes/No Awareness Questions**
- **Templates Customized by Each Flight, Squadron, Group and Installation (One Hour per Organization to Customize, then Minutes to Complete When Updates are Needed)**
- **Answers reflect status and allows comparison**
- **No penalties**
- **Currently in Beta Test**
 - **Dyess AFB, TX**
 - **Found programs lacking in conservation**
